

Question42 on the Nature of Consciousness		
The Expanding Scale		
STATEMENT	ANSWER	LEVEL* OF TRUTH
The range of incoming Levels of Intention of Homo-Sapiens is between 0 and 1000	yes	1,000
The range of incoming Levels of Intention of Homo-Spiritus is between 1001 and 25,000	yes	1,000
<i>Homo-Spiritus</i> contains four groups based on Level of Intention	yes	25,000
The first group is the <i>Indigos</i> with incoming Levels of Intention between 1001 and 10,000	yes	25,000
The second group are the <i>Crystals</i> with incoming Levels of Intention between 10,001 and 15,000	yes	25,000
The second group are the <i>Rainbows</i> with incoming Levels of Intention between 15,001 and 20,000	yes	25,000
The last group is the <i>Emeralds</i> with incoming Levels of Intention at 25,000	yes	25,000
In his book <i>Power Versus Force</i> and 2002 lectures, Dr Hawkins outlined the gates between the levels of 0 (death) and 1000 (Jesus Christ)	yes	1,000
To pass through a gate, one must have come to a higher understanding of Consciousness, and be able to feel (heart chakra) that higher level of understanding	yes	infinity
1st MAJOR gate on the extended Map of Consciousness is between 500 and 501	yes	1,000
To move through this gate, one must see that there is no way that anyone could figure out, or fully understand Consciousness, let alone their wife or next door neighbor	yes	1,000

It is to step from the known world which can be measured and quantified into the unknown and the unknowable	yes	1,000
Over 500 on the Map of Consciousness, you begin to apply that to the world around you and the people around you	yes	1,000
The second major gate is between 10,000 and 10,001	yes	15,000
The third MAJOR gate is between 12,000 and 12,001	yes	20,000
The fourth major gate is between 20,000 and 20,001	yes	25,000
The seventh MAJOR gate is between 25,000 and 25,001	yes	50,000
25,000 is the energetic limit of this physical world	yes	25,000
50,000 is the energetic limit of the individual dimension	yes	50,000
At 900, the clearing process begins for <i>Homo-Sapiens</i> with an Intention of 1000 (see Questions 15)	yes	1,000
At 1800, a clearing process begins for a <i>Homo-Spiritus</i> individual with an Intention of 2000 (see Questions 15)	yes	5,000
The clearing process starts at a different point for every level of Intention, from Homo-Sapiens to the Archangels	yes	50,000
It is the beginning of a larger awakening process	yes	50,000
This clearing/awakening process completes when the Level of Consciousness is held at approximately 90% of the incoming Level of Intention long enough to clear the <i>ego</i> , the <i>subconsciousness</i> , the <i>unconscious</i> , the <i>collective unconscious</i> as well as all past <i>negative Karma</i> and any <i>negative energies related to the Sacred Contract</i>	yes	50,000
There is then a reorganization of the data in the brain to accommodate the new paradigm and an integration process	yes	50,000
In Homo-Sapiens, completion of even the first part of this process (clearing of the Ego) has traditionally been called <b><i>Enlightenment</i></b>	yes	50,000

Prior to 2003, there has been no one to complete the entire process (Jesus did not live long enough)	yes	1,000
Prior to 2003, only four persons made it to the final step, <i>integration</i> (Jesus Christ, John the Apostle, the Apostle Thomas & the Buddha)	yes	1,000
Integration normally takes 4 to 10 years to complete	yes	50,000
<hr/>		
As of 6/30/14, there have been over 270 <i>Homo-Sapiens</i> who have completed all but integration	yes	1,000
<i>Homo-Spiritus</i> begins clearing at their relative Clearing Level (see Questions 15) based on their incoming Level of Intention	yes	25,000
As of 6/30/14 there have been at least 110 <i>Homo-Spiritus</i> who have completed all but integration	yes	25,000
<i>NOTE: Incoming Level of Intention cannot change, however some people move past their incoming Level of Intention to form a new Base (Level of Intention)</i>	yes	25,000
<i>They then complete the clearing/reorganization/integration process at 90% of their new Base</i>	yes	25,000
The first attempt at clearing begins the first time the person moves past their Clearing Level, and clears all negative frequencies (0 - 200) associated with levels of Consciousness from 201 through their current Level of Consciousness	yes	25,000
The clearing process is <b>restarted</b> every time the individual Level of Consciousness (also Level of Purpose) moves upward more than 75 points ( <i>Sapiens</i> ) or 100 points ( <i>Spiritus</i> )	yes	25,000
If earlier clearing attempts did not complete before the next upward move, the current clearing includes everything not previously completed	yes	25,000
The process is very similar for <i>Homo-Spiritus</i> except they have much more territory to clear before a full awakening	yes	25,000

It is not uncommon to initially move to a higher level of Consciousness, move back to some point between the old and higher level, and retrace the first movement more slowly so that more clearing is accomplished (it is not up to you)	yes	25,000
It is even likely that an individual may have to clear a particular range 2, 3 or 10 times or more before moving on to a higher level	yes	25,000
Going through this clearing/awakening process several times prior to moving on to the next major gate deepens the overall level of clearing	yes	25,000
The only control we have over this process is to say YES or NO	yes	25,000
Very rarely, the clearing process may restart itself as many as 50 to 100 times before the full awakening is completed, especially for lower level Homo-Spiritus with high level souls	yes	25,000
<hr/>		
After the awakening process is completed at the current level, there is always still room for further growth and clearing in subsequent lives until clearing is completed for a Level of Consciousness of 25,000	yes	25,000
Clearing has more physical impact a few days immediately after you have past through one of the major gates	yes	25,000
At that point you are clearing negative energies surrounding whatever concepts you just gave up to move to a higher level	yes	25,000
